Data Packet and Description

This folder contains the datasets used in “What Do You Think Would Make You Happier? What Do You Think You Would Choose?”, as well as their documentation and stata .do files to recreate results reported in the paper.

For details about the datasets and explanations of the function of different .do files, see the PDFs “CNSS Data and Replication Description,” “Cornell Data and Replication Description,” and “Denver Data and Replication Description.” For extensive details about the study populations and survey design, see section I of the paper.

Files included in this package are listed below.

Documentation:

- CNSS Data and Replication Description.pdf
- Cornell Data and Replication Description.pdf
- Denver Data and Replication Description.pdf

Stata .do files:

- BHKRcnss.do
- BHKRcornellanalysis.do
- BHKRdenverwsanalysis.do
- Demeaningcornelldata.do

Stata .dta files:

- **CornellData.dta (Cornell dataset)**
- **CornellDataDemeaned.dta (Cornell dataset with choice and aspect ratings demeaned at the scenario level)**
- **DenverBSdata.dta (Denver between-subjects data)**
- **DenverWSdata.dta (Denver within-subject data)**
